

Assignment 1: One-pager of a Research Paper

AIDI 2004 Winter 2021

Weight: 10%

Due: Week 4, January 26 (Tue)

Select a relevant research paper in the field of **AI Ethics** and write a one pager on it. ***This is a group work of two people.***

One-pager is a one-page summary of the paper. Between 400 and 500 words. Typed, 11-12pt font. It should:

- summarize the problem(s) addressed/solved by the research paper (1-2 sentences that clearly describe the problem: "The problem is..." (10)
- briefly sketch the main ideas on which the solution of the problem is based (15)
- identify 3 strong points and 3 weak points of the paper (15)
- briefly describe the research methodology of the paper (10)
- raise three significant questions about the paper (10)
- other remarks (10)

Collaboration plan and work division: How will your group hold meetings?

How many hours you work as a team for this assignment? List who is doing what?

How will you resolve conflict or inequitable work distribution?

Rubric:

1. Choice of paper	10
2. One-pager	70
3. Collaboration plan and work division	20

This assignment relates to the following Course Learning Outcomes:

CLO1: Evaluate the importance of AI in various enterprise settings and develop strategies for developing enterprise AI solutions

CLO3: Collect data, conduct research, develop, and evaluate models for developing enterprise AI solutions.
